## PRICE LIST

We beg to announce the issue of our fifth price list, and while we regret it has been necessary to increase some of our prices, we wish to assure our customers that the increase is by no means in proportion to the additional prices that the Company is forced to pay distillers.

We will continue in the future, as in the past, to sell only liquors of the purest quality, and we again invite special attention to the Company's own bottlings, quotations on which are, in each instance, prefixed by the words "**H.B.C.**" in red type.

We are enabled to offer, in our own bottlings, values impossible to give in proprietary lines, and the words "**H.B.C.**" in the Company's bottling stands for, in quality, the very best obtainable.

We respectfully solicit your patronage.

**HUDSON'S BAY COMPANY,**

Moosomin, Sask.

September 1st, 1917.

**EACH CASE CONTAINS 12 BOTTLES**

## Remarks and Suggestions

We strongly recommend purchase of Draught Liquors. Buying by the half-gallon, gallon, three or five-gallon lots is by far the most economical. In purchasing by the bottle we suggest your bearing in mind that the Express charges are but little more on three bottles than on one, thus quantity buying is the more profitable.

Please write plainly your name and address.

No charge is made for Jars or Packages or Packing.

Please state if shipment is to be made by Freight or Express.

The importation of Liquors is becoming more difficult daily, due to conditions in Europe, therefore we may at times have to substitute, but if our substitution (though quality will always be equal or better) does not meet with your full approval, we will refund full purchase price and pay all charges, upon return of the article.

### CLAIM FOR SHORTAGE OR BREAKAGE

If desired we will lodge claim on your behalf with Express Company, but in such instances it is necessary for you to forward us your express bill with notation of shortage or breakage by express agent.

All packages leave us with full measure and count.

### PRICES AND TERMS

All prices are net Cash and F.O.B. Moosomin.

Railway companies will not accept C.O.D. shipments of liquor.

We suggest remittance by Money Order or Marked Cheque.

Currency, if sent, should be registered.

Prices on all Wines herein include War Tax Stamps.

# BAKING RECIPES

---

## GOLD CROWN Muffins

Three cups **Gold Crown Flour**, one-half teaspoonful salt, two rounded teaspoonfuls baking powder, one-half cup sugar, two eggs, one and one-half cups sweet milk, one half cup melted lard or butter. Sift all dry materials together, add eggs unbeaten, milk and shortening last. Beat batter briskly three minutes and drop in well greased pans. Bake in hot oven ten minutes.

## GOLD CROWN Biscuits

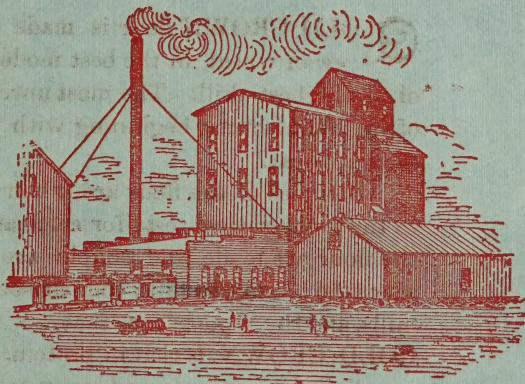

Take one quart **Gold Crown Flour**, two teaspoonfuls of baking powder, one teaspoonful salt. Sift thoroughly once or twice. Rub into this one large tablespoonful of butter or lard. Then add sufficient sweet milk or water to make a soft dough. Roll out in sheets one-half to three-quarters of an inch thick; cut out biscuits, place in greased pans; bake in quick oven until done.

## GOLD CROWN Bread

To three pints of luke warm water add two cakes of compressed yeast, two tablespoonfuls of sugar and one level tablespoonful of salt. Mix thoroughly until all lumps are dissolved. Let mixture stand for thirty minutes. Then add one tablespoonful of lard and mix the flour in slowly until dough works smooth and does not stick in kneading. Let rise well then knead and put into pans. Let rise to twice its size, then bake. This will make bread in from three to five hours.

# GOLD CROWN FLOUR

---

**G**OLD CROWN flour is made from the best selected hard Saskatchewan wheat, in the best modern mill that can be built and by millers of the highest skill. The most unremitting care is taken in every process of its manufacture, beginning with the selection, cleaning and purifying of the wheat.

Samples of the flour are taken hourly from the spouts and subjected to the most critical tests for color and strength. Daily local bakings of the flour are made, and samples are sent to Minneapolis twice weekly for scientific baking tests in comparison with the products of other leading mills, and the reports are sent to us. These scientific tests show that GOLD CROWN is rich in protein which is the element in flour that supplies *nerve, muscle and brain* to the human body.

GOLD CROWN flour is milled with such skill and care that we guarantee it equal to any flour made on the American continent. Bread made from GOLD CROWN flour is the best food for building up brain, nerve, bone, and muscle,—in short, for *developing and sustaining a sound mind and a sound body*.

Our Motto for GOLD CROWN is "QUALITY," first, last, and always. Correspondence solicited.

We invite special attention  
to the following lines embodied in this list, which gives you absolutely the greatest value procurable today in Canada:
